SPECIFICATIONS	
Color	Colorless
Density	0.750 – 0.950 g/cm^3
Volatiles	100%

Characteristics

Mixture of aromatic and aliphatic solvents. A colorless and volatile liquid with a characteristic odor.

Usage

Specially formulated as a diluent of the following product series:

- SUBALOX E
- SUBOX E
- PERMANOX E
- THERMOX E
- GALVANOX II
- FOR EPOXY PRODUCTS

Storage Conditions

Store in sealed containers in a cool, dry and well-ventilated area at a temperature below 104ºF (40ºC) and relative humidity below 80%.

Handling Safety

- **MT-571** solvent must be used in well-ventilated areas. Contact with skin will cause slight irritation: therefore, solvent-resistant neoprene gloves should be worn, safety glasses, face mask, and used in well-ventilated areas away from sparks and ignition sources
- If splashed in the eyes, rinse with abundant water.
- If swallowed, seek medical assistance immediately.
- **MT-571** solvent is flammable due to the vapor pressure of its solvents; the material should be stored in a cool place. When opening containers, loosen the cap slowly and carefully until the pressure is released.

Remarks

We guarantee the quality of our products according to the general sales and application guidelines, our technical use method advice, verbally expressed and written and scenarios. Where conducted as part of our research, therefore we suggest you conduct your own lab and field test. The application and the terms on how you use our products are out of the reach of our control; therefore, you are responsible for any results.
